

Progression Summary

Fill out one form per feature (not activity). In the Visual Progress pane, try and outline any progress you will have made to features that affect the visual display of the app - UI Views, Navigation Controls, etc. Don't show the entire screen (unless applicable), concentrate on the feature.

Activity	AboutPage		VideoView t	Hours
Feature	VideoView		VideoView Function	2
Est. Hours	4	Actual	7	Hours
	11/12/2013		Component	Hours
Details & Status		Components		

The video gives a tutorial of the application.

Expected Functionality

This video helps the user understand how the application works. The most difficult part was trying to get the correct format to get the video to display.

Changes & Outcomes

		Progress Bar Function	Hours

Details & Status

Components

The button from the “About Page” will load the custom survey that is created by using Google Docs. The user will be able to submit feedback. The refresh button will reload the survey if the survey doesn’t load properly, and the “X” button will exit the survey if the user decides not to take the survey.

Expected Functionality

This survey will help me determine what needs improvement from the view of the users.

Changes & Outcomes

It's Paid Feedback Survey

This is a survey that will help make It's Paid work better for you. I appreciate your feedback.

Would you recommend this app to other people?

- ☐ Yes
- ☐ No
