

Progression Summary

Fill out one form per feature (not activity). In the Visual Progress pane, try and outline any progress you will have made to features that affect the visual display of the app - UI Views, Navigation Controls, etc. Don't show the entire screen (unless applicable), concentrate on the feature.

Activity	AboutPage		VideoView t	Hours
Feature	VideoView		VideoView Function	2
Est. Hours	4	Actual	7	Hours
	11/12/2013		Component	Hours
			Component	Hours
Details & Status			Components	

The video will talk about the application. It will explain why I decided to create the application. The user will be able to play, and pause the video by tapping the video.

Expected Functionality

This will give the users and inside look at the reason behind why I created this application. The issue that had caused this section to take longer than expected was getting the video to display in the video view.

Changes & Outcomes

Visual Progression (if applicable)

Progression Summary

Fill out one form per feature (not activity). In the Visual Progress pane, try and outline any progress you will have made to features that affect the visual display of the app - UI Views, Navigation Controls, etc. Don't show the entire screen (unless applicable), concentrate on the feature.

Activity	AboutPage/ SurveyPage	WebView Settings/Function	Hours
Feature	Custom Survey	Cancel/Refresh Function	Hours
Est. Hours	7	Actual	4
	11/11/2013	Progress Bar	Hours
		Progress Bar Function	Hours

Details & Status

Components

The button from the “About Page” will load the custom survey that is created by using Google Docs. The user will be able to submit feedback. The refresh button will reload the survey if the survey doesn’t load properly, and the “X” button will exit the survey if the user decides not to take the survey.

Expected Functionality

This survey will help me determine what needs improvement from the view of the users.
